Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Economic Research Area
THRU : Planning and Review Staff
THRU : Chief, Industrial Division *EWL*
FROM : Acting Chief, Weapons and Ammunition Branch

DATE: 18 November 1955

SUBJECT: Project 30.1006, DD/P Request for Summary of Egyptian Military Inputs, [REDACTED]

25X1A

Attached is our answer to DD/P's request for a summary of Egyptian inputs of military equipment. In preparing the attached report, all sources of information available to ORR have been checked. Our survey indicates that all information is covered in CIA, State, and Navy messages, the New York Times, and the London Times. Complete coverage has been found to be available in the Current Intelligence Digest.

If information on specific items of equipment is desired it is felt that this could be done more expeditiously on an informal basis with our D/I branches. However, for the requestor's purposes, it is our opinion that OCI's coverage is most satisfactory and that a continuing weekly report would be unnecessary.

It is requested therefore, that [REDACTED] inform the original requestor of our conclusion and refer the requestor to the Current Intelligence Digest for purposes of continuing to keep current on the shipments.
